## **Measles Initiative**

Raise awareness and funds for one of the most successful global public health interventions that fights a leading cause of vaccine preventable deaths among children. There are many different ways that your chapter and youth can get involved by simply selling Measles Initiative pins, preparing your chapter for participation in the 2009 youth art contest, or organizing a 5k run/walk in your community. You can find out more about chapter and youth opportunities and ideas to support this program on [CrossNet](#):

Additional ideas, resources and materials are available. You can find out more by contacting Jill GrosPierre at [GrosPierrej@usa.redcross.org](mailto:GrosPierrej@usa.redcross.org).

## **International Humanitarian Law**

Share the values of the Geneva Conventions by distributing information on international humanitarian law or celebrate the 60th Anniversary of the values and lifesaving purpose of the Geneva Conventions by organizing an event to learn about the International Red Cross and Red Crescent Movement.

The following links are – two PowerPoint presentations, a self-study guide, how to get One World, One Movement, the IHL brochure and a self-study guide for teachers.

## **Restoring Family Links (RFL)**

These following links can be used to do RFL casework such as:

- Locating people who are being sought by relatives overseas – researching, calling community agencies, conducting home visits.
- Interviewing clients at the chapter to help them locate missing relatives.
